
a 5° mean p1 (principal)
orange: top 10% (44 cells, ≥12.56)
× area-weighted flux centroid
dashed square: peak cell
b samples per 5° cell
432/432 cells eligible
min 276 samples
c 2° mean p1, coverage
hatched red: observed, <30 samples (15)
black: no valid observation (0)
latitude (°)
longitude (°)
